

5.1 HDMI 3D AV Receiver + Speaker Package with HD Audio

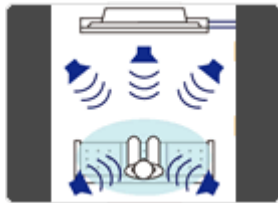

PIONEER HTP-071

Unique value for money.

A quality 5.1 home cinema system is like a second life for your favourite films. Just connect a Blu-ray or DVD player to the package and you're ready to go. There are 4 HDMI inputs.

The package includes an AV receiver, 5 small, rich-sounding satellite speakers that can be discretely positioned around the room, and a powerful subwoofer for rumbling lows.

True home cinema

Benefit from a lively, sensory experience with 5.1 HD virtual 3D sound. The 5 speakers and powerful subwoofer fill the space with superior quality audio and transform your living area into a genuine home cinema.

The latest HDMI technology

This AV receiver can play 3D video from a Blu-ray disc. Other convenient features include an Audio Return Channel for televisions with a built-in DVD player or tuner, for example.

High-definition audio

Besides Dolby Pro Logic II, the receiver supports Dolby TrueHD and DTS-HD Master Audio so you can enjoy uncompressed, high-definition audio from Blu-ray discs as well.

Level your sound experience

As volume levels frequently vary depending on your audio source, you often find yourself making manual adjustments to re-calibrate the audio output. The Auto Level Control feature detects the difference and automatically re-aligns the volume level for you.

AM/FM tuner built-in

No need to add an AM/FM tuner component. This receiver comes with a tuner and 30 built-in, pre-set stations so that you can effortlessly enjoy your favourite radio stations.

Specifications

Main Features

- Total Output Power 600 W
- Speakers
 - 4 x compact speakers
 - 1 x dual centre speaker
 - 1 x subwoofer
