CRYSTAL 4

Home Cinema Package

Crystal 4 is a new home cinema package from Wharfedale. Each speaker within the range incorporates the latest in Wharfedale driver and cabinet technology, ensuring a thrilling home cinema experience at a market-leading price.

Who Are They For?

Crystal 4 series loudspeakers are for music and film lovers who are seeking a quality, fully-fledged home cinema solution at an entry-level price. The bookshelf and floorstanding speakers in the range equally perform within 2-channel systems in their own right.

What Makes Them Great?

- TE / Trapezoidal internal cabinet structure adds strength, while eliminating standing waves that produce unwanted resonance in low-mid frequencies. The result is that bass frequencies are clear and detailed while packing a punch.
- Upgraded, ultra-rigid and light weight Woven Kevlar material used in the bass / mid-range drivers ensure a fast reaction to microtransients within any audio. This means performances are brought to life with outstanding imaging and depth.
- Additional natural fibre bass drivers are used in floorstanding models are made from the ground-up in our own factory and use a precise formula engineered for acoustic performance.
- A micro-fibre dome treble unit placed within the curve of the front baffle guarantees an extended high frequency response adding a bright, yet smooth detail to soundtracks and musical performances.
